

Serial No. 10/606,863

Attorney Docket No. 11-165

**LISTING OF CLAIMS:**

The following listing of claims replaces all previous versions and listings in the present application.

1. (Previously presented) A load drive control system having a control apparatus, and a drive apparatus which performs driving of a load based on a control signal supplied from said control apparatus, wherein

said control apparatus comprises means for producing a power supply enabling control signal and for selectively supplying said power supply enabling control signal to a signal input point in said drive apparatus, and for selectively varying a control parameter of said power supply enabling control signal, and

said drive apparatus comprises a drive signal output section and a power supply enabling
